

# Reliable IT power protection

**centiel**  
*continuous power availability*

## EssentialPower™ X1 RT

The single-phase UPS  
from 1 kVA to 20 kVA

## EssentialPower™, the single-phase UPS

**EssentialPower™** is the online, true double-conversion, single-phase UPS (Uninterruptible Power Supply).

From 1 to 20kVA, EssentialPower™ provides the most flexible and reliable solution ideal for small network devices, servers, point-of-sale, workstation clusters and light-industrial installations. EssentialPower™ satisfies any entry-level mission critical application demanding high availability and flexibility.

## Flexibility for any application

From 2U to 5U, mono-mono or tri-mono, EssentialPower can be used as standalone tower or rack-mounted UPS on any mission critical application.

EssentialPower offers built-in internal batteries from 1 to 6 kVA, and the possibility to connect matching battery cabinets for autonomies of up to 4 hours

## Benefits

- Standalone tower or 19" rack-mount configurations
- Connectivity: USB, RS-232, potential-free contacts
- EPO contact inputs for remote shutdown
- Cold start
- Parallel operation from 6 kVA to 20 kVA
- Frequency converter operation (50 Hz or 60 Hz)
- Connect up-to 4 battery modules to achieve hours of autonomy times

## Connectivity

With a variety of options, like, communication cards, expansion relays, SNMP and ambient monitoring applications, **Essential Power™** can be easily integrated into any environment and building management system.

## Reliability

- True-online double conversion, pure sinewave output
- Reliable digital power conversion architecture
- Wide range input window from 110 to 300 Vac
- Extended battery life I – U (DIN 41773)
- Patented backup runtime estimated on LCD

## Ease of Service

- Frontal access battery replacement
- Clean and clear user-friendly display
- Records event log and alarms up to 500
- Personalization & intelligent self-diagnostic
- Easy firmware Flash upgrade
- Manual maintenance bypass switch (optional)

## Battery autonomy

## The single-phase ATS-16-32A

The ATS (Automatic Transfer Switch) provides redundant power to single input devices by managing two separate, independent power sources.

### Reliability

**High automatic transfer speed between two sources (8 – 12 ms).**

**Takes up minimal space: 1U for 16 A and 2U for 32 A.**

**Includes USB, EPO, RS232 for dry contacts and slots for optional communication cards.**

### Technical Datasheet single-phase ATS

	Model	16A ATS-UP016-U1	32A ATS-UP032-U2
General data	Rated Current	16 A	32 A
	Rated voltage	200/208/220/230/240 Vac (±5%/10%/15%/20%)	
Input	Frequency	50/60 Hz (±5%/10%/15%/20%)	
	Input sockets	2 x IEC-C20	2 x 30 A terminal blocks
	Rated voltage	200/208/220/230/240 Vac	
Output	Maximum output current	16 A	32 A
	Transfer time	8–12 ms	
	Output sockets	8 x IEC-C13 1 x IEC-C19	12 x IEC C13 2 x IEC C19 1 x 32 A terminal blocks
	Protection	Downstream short circuit	
	Dimensions (WxDxH) mm	440x275x44	440x275x88
Physical	Weight (kg)	4	6
	Operation Temperature	-5°C to + 40°C	
Environmental parameters	Operation Humidity	0–90%RH (without condensing)	
	Built-in communication ports	RS232, USB, EPO, relay card with dry contacts (5 out)	
Communications	User interface	LED (source A and/or B, fault status) LCD (parameters: alarms, faults)	
	Optional accessories	RS485, SNMP/Web cards	
	Standards and certifications	IEC EN 62368-1, IEC EN 62310-2	
	Marking	CE
